

TERMS (demo)

Basic terms for participating in the ZAZISE early adopter / public participation demo. Separate from Privacy. Warm but clear, with craft over legalese.

1. Early access & demo nature

ZAZISE early adopter materials, including registration, thank you, and the Early Adopter Preview home. They are provided as a **demo / preview**. Features may be incomplete, change without notice, or show “we’re still cooking” toasts where live behaviour is not yet available. Nothing here guarantees a launch date, feature set, or ongoing service level.

2. Public participation

By joining, you take part in a **public participation** initiative born from love of South Africa and the need for a video space that speaks to SA (including a UI for several languages and the spirit of *Make Yourself Known*). Feedback you share may inform product direction. Unless we agree otherwise in writing, feedback is voluntary and not confidential.

3. Acceptable use

You agree not to:

- Abuse, disrupt, or overload the demo (including automated registration / scraping beyond fair testing).
- Attempt to bypass human verification, probe other users’ data, or compromise the demo host.
- Upload or transmit unlawful, harmful, hateful, or infringing content through any path that becomes available.
- Misrepresent your identity in a way intended to deceive other participants or operators.
- Use the demo for commercial spam, malware distribution, or any illegal purpose under South African law.

We may suspend or remove demo access if acceptable use is breached.

4. Accounts & responsibility

If you create an early adopter account (name, surname, email, password, reCAPTCHA), you are responsible for keeping your credentials confidential and for activity under your account on the demo host. Use an email you control. Do not share passwords.

property of their respective owners. Early access does **not** grant you a licence to copy, rebrand, or commercially exploit ZAZISE marks outside ordinary personal preview use and good faith sharing of the initiative's story (with attribution).

6. Contributor acknowledgement

People who contribute craft, feedback, or time to this early adopter journey may be **acknowledged with gratitude** in project materials. Acknowledgement is recognition, not employment, partnership, or equity unless a separate written agreement says otherwise.

7. No warranties

The demo is provided **"as is" and "as available."** To the fullest extent permitted by applicable law, we disclaim warranties of merchantability, fitness for a particular purpose, uninterrupted availability, and operation without errors. Preview GIFs, trending UI, toasts, and local storage behaviours are illustrative.

8. Limitation of liability (fundamental)

To the fullest extent permitted by applicable law, ZAZISE and operators of this demo are not liable for indirect, incidental, special, consequential, or exemplary damages arising from your use of (or inability to use) the demo, including lost data on a local machine, missed notifications, or decisions you make based on preview content. Where liability cannot be excluded, it is limited to the greater of ZAR 0 (demo is free) or the minimum amount that cannot be excluded required by law.

Nothing in these Terms excludes liability that South African law does not allow to be excluded (for example, certain rights under consumer protection statutes where they apply).

9. Changes

We may update these demo Terms as the early adopter initiative evolves. The date on this document (28 September 2026) indicates the version you were shown with this kit. Continued use of a refreshed demo build after notice (or an updated Terms file in `docs/`) constitutes acceptance of the revised demo terms where permitted.

10. Governing law (high level)

These demo Terms are intended to be read under the laws of **South Africa**, without a full jurisdictional review. Courts of South Africa are the intended venue for disputes that cannot be resolved amicably. This is a high level summary for the demonstration.
